

HOTEL / RESORT

Weller Pools has been the leading water amenity contractor in the southeast U.S. for hotel and resort development since inception. The hotel and resort growth throughout the state of Florida and particularly Orlando has allowed Weller Pools to be the leading expert in this field. Weller Pools has designed and built some of the most complex resort destination facilities in the U.S. and throughout the Caribbean. Hotel and resort design and construction relies on tight construction schedules and the highest quality possible.

Today's resorts and hotels are demanding that guests are treated to an amenity area that is unmatched by amusement parks and water parks alike. With features such as lazy rivers, interactive water features, wading pools, water slides and multi-level water play structures, the resorts and hotels must provide entertainment for the entire stay in the facility.
